Achivement

Neo Bookstore

Neo Book Store is an online application which was built as a product that can be catering to various customers who requires purchasing books. The scope of this project was to create an account, login, view Books & buying the books by using Spring web (Rest Controller). This was done by java language with Spring boot framework & Postgres SQL as Database.

Coded and designed Static Web Pages

Developed website with HTML5 and CSS, JAVASCRIPT to make website more interactive and dynamic.

Other skills
